Reminder Gasification Course, 18-19 September 2017, Freiberg, Germany

The Institute of Energy Process Engineering and Chemical Engineering (IEC) at TU Bergakademie Freiberg is pleased to inform you that there are still some places available for the

Compact Course: Fundamentals of Gasification Processes

which will be held from **18th - 19th September, 2017** in Freiberg/Germany.

The compact course "Fundamentals of Gasification Processes" is designed to provide a general overview of gasification technologies and related issues. Within two days, a broad survey on the fundamentals of gasification along the entire process chain will be given.

The course is intended for engineering and technical personnel who either want to get a first understanding of gasification or plan to update and expand their knowledge on gasification processes and technologies.

More information and course schedule

As attendance is limited to 20 participants, please send us your registration at the earliest possible opportunity. On top of that, we would appreciate if you could forward this announcement to other potential participants.

For questions please contact: Michaela Nguyen

It would be a pleasure for us to welcome you in Freiberg!
